## STATEMENT OF NON-GMO STATUS

LiquiPro™ SC is produced from naturally selected and naturally occurring proprietary single strain yeast, *Saccharomyces cerevisiae*. The yeast in LiquiPro SC has not been genetically modified by in vitro recombinant DNA technology.

Inherently, the molasses used in production, is not genetically modified as no modified varieties are currently marketed in the United States. In compliance with EU Regulation ((EC) No 1829/2003), LiquiPro SC contains no more than 0.9% adventitious or technically unavoidable genetically modified material.

The Diamond V production facilities are certified to manufacture products from non-GM materials by an independent Good Manufacturing Practice (GMP) inspector.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read "Caroline Litterer", written over a horizontal line.
